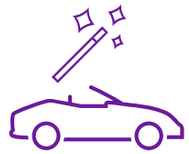
AI Copilots versus Agents

Copilots

- Human-led: Assist users by enhancing human tasks
- Play a support role
- Help you with tasks that require human insight and expertise
- Add value by enhancing your team's productivity, decision making, and creativity



Agents

- AI-led: Act autonomously to perform tasks in the background
- Independent actor
- Handle well-defined tasks end-to-end without constant human oversight
- Add value by automating repetitive tasks; leveraged by Copilots to help streamline workflows

AI Agents Enable A New Class of Products

Transform Copilot
2024.3 (October)

- Based on AI/ML
- Customers can leverage TM-provided foundational models or build their own
- Works for any form, field, doc type
- Customers can ask questions of any document and map answers to CRM *(future enhancement)*
- Training done through prompt engineering and annotation while ingesting documents *(future enhancement)*

Universal Task Order Management
2025.1 (March)

- Based on AI/ML
- All task order RFXs – emails and portals – in a single pipeline
- Sent to TechnoMile for AI/ML processing
- AI Agent extracts standard information and answers questions using the text of emails, notices, and documents
- Consistent view across all task orders – and in the future, ALL OPPORTUNITIES

Foundation

Models

- Models available in FedRAMP environment
- Guardrails, validation, and explainability at core
- Multi-modal capable
- Domain specific, fine tuned models using Llama, Azure OpenAI GPT
- No data returns to foundational model provider

Data

- Customer-specific vaults provided to store any data that must be referenced later
- Data is encrypted at rest and in transit
- Agents can only access customer vault with customer key
- TM data lake may also be accessed to further enhance data

Infrastructure/Compliance

- TechnoMile leverages AWS GovCloud and Azure Government Services for service hosting
- TechnoMile is SOC II Type 2 certified and is undergoing FedRAMP Moderate equivalency for all services

Best-in-Class Architecture

- Azure OpenAI GPT-3.5 Turbo
- Azure Government
- AWS GovCloud
- SOC2 Type II Certified
- Equivalency *in-process (1H25)*

Agents vs. Copilots (Deeper Dive)

Agent

- AI – led
- Human out of the loop
- Pipeline of AI processes that consistently perform without human intervention
- Validation of results using AI
- Persona, Actions, Traits
- Set Context Window

Copilot

- Human – led
- Human in the loop
- AI processed content provided from Agents to human to enable their process
- Curated by humans (SMEs) to give best output
- Human Validation of Results
- Set Context Window

Section C - Descriptions and Specifications

SECTION C DESCRIPTION

Items 0001, 0002, 0003, 0004, 0005, 0006 – The Contractor shall provide SERVICES in accordance with the Non-Performance Based Statement of Work (NPBSOW). Contract services shall be performed in accordance with the NPBSOW as detailed in individual task orders. The task order NPBSOW will detail tasks that fall within the scope of the base contract.

Items: 0007, 0008, 0009, 0010, 0011and 0012 – The Contractor shall provide TRAVEL in accordance with NAVAIR Clause 5252.232-9509 and the NPBSOW. The Contractor shall provide MATERIAL in accordance with H Clause 5252.242-9515 "Restriction on The Direct Charging of Material and the NPBSOW.

Item 0013 – The DATA reports to be furnished hereunder shall be in accordance with Exhibit A, DD Form 1423, Contract Data Requirements Lists (CDRLs), CDRLs A001-A005, and the NPBSOW as required by the individual Task Order.

NON-PERFORMANCE BASED STATEMENT OF WORK (NPBSOW)

RELIABILITY AND MAINTAINABILITY (R&M)/SYSTEM SAFETY ENGINEERING AND TECHNICAL SUPPORT

1.0 BACKGROUND. The Naval Air Warfare Center Aircraft Division (NAWCAD), System Engineering Competency (AIR-4.1) is tasked to provide reliability, maintainability, system safety, diagnostics, and testability support of Naval aircraft and their subsystems.

2.0 SCOPE. This ID/IQ contract vehicle will permit specific task orders to be issued, based on the general tasking outline in Section 4.0. Under this tasking, the Contractor shall provide engineering and technical support to AIR-4.1 for reliability, maintainability, testability, quality assurance, diagnostic and system safety analyses during the design, development, production and in-service cycles of all Naval aircraft and their systems. This support encompasses: carrier based tactical aircraft; shipboard capable vertical/short takeoff and landing aircraft; maritime support aircraft; unmanned aircraft; tactical weapons systems; support systems and equipment and aircraft launch and recovery equipment.

2.1 No personal services may be performed under this contract. The Government shall not supervise Contractor employees. The Contractor shall manage their employees and to guard against any actions that are of the nature of personal services, or give the perception of personal services.

2.2 Services under this contract shall support the following:

-PEO(T) TACTICAL AIRCRAFT PROGRAMS
-PEO(A) AIR ASW ASSAULT and SPECIAL MISSION PROGRAMS
-PEO(U&W) UNMANNED AVIATION and STRIKE WEAPONS
-NAVAIR (AIR-1.0) COMMON and SUPPORT PROGRAMS
-PEO(JSF) JOINT STRIKE FIGHTER
-FOREIGN MILITARY SERVICES
-OTHER DOD SERVICES
-OTHER U.S. GOVERNMENT AGENCIES (FEDERAL/STATE/LOCAL)
-COMMERCIAL SERVICE AGREEMENTS

3.0 APPLICABLE DOCUMENTS. The following list of military standards, handbooks and specifications is being provided as general guidance only. Contractors are encouraged to submit alternatives to the military standards and specifications, if practical. At the time of award, if the Contractor's proposed alternative standards or specifications are determined to be acceptable, the alternative documents shall replace the existing listed military standards or specifications.

RFx ID: N68520-25-0001

Competition: Full and Open

CUI Data?: ✓

RFx Title: LOGEN II Support Services

Opportunity Type: Request for Proposal

Opportunity Summary: This opportunity entails providing engineering, logistics, and production support for multiple Fleet Readiness Centers to enhance COMFRC's aircraft maintenance and operational readiness across sites in the U.S. and select international locations.

Question Due Date: October 25, 2024

Proposal Due Date: Expected in FY 2025, Q2

Potential Value: $474 Million

NAICS: 541330

PSC: R425

Contract Type: Indefinite Delivery, Indefinite Quantity (IDIQ)

End User Agency: COMFRC

End User Agency Code: NAVAIR

Expected Period of Performance: Five-year ordering period, plus six-month extension option

Top 5 Capabilities: Engineering support, Logistics support, Program management, Technical analysis, Production support

Highest Security Clearance Required: Secret
